DENIED IN A REPORT.

Mayor Grant received from Secretary Britton, of the epartment of Charities and Correction, yesterday, the reports of the medical superintendent and his assistant, the steward and other employes, contradicting the sworn statements of Henry Hofnagel, recently chie cook of the Female Department of the Blackwell's Island Lunatic Asylum, as to the shocking condition of some of the articles of food furnished the asylum. Hofnagel alleged in an affidavit submitted to the Mayor on Wednesday that large quantities of meat in a de cayed state and rotten potatoes were received at the institution, and that after being cooked the condition of the supplies continued so utterly unfit for use that the steward ordered that they be thrown away. Secretary Britton in his letter says that the statement is

HOPE GIVING WAY TO GRAVE FEARS.

STILL NO NEWS ABOUT THE DANMARK'S PAS SENGERS-UNSATISFACTORY THEORIES.

The suspense in which the agents of the Thingvalla Line have been since the Inman steamship City of Chester reported having sighted the Danmark, abandoned in midpasses without the least tidings of the officers, erew and passengers. All of the overdue steamships by which it was hoped that some news from the missing people would be brought are now in, and hope has almost given .way to doubt as to the safety of the people. There are several to doubt as to the safety of the people. There are sever-theories about the vessel, each of which is plausible. One of these is that some sailing vessel ran into the Danmark and so shattered her stern that it was harardous for any one to remain on board, and that all were taken off, and that the vessel is now trying to make the nearest port; or she may have already arrived at the hearest port, or she may have already arrived at the Arores. From these islands there is a steamer on the 5th, 15th and 25th of the month, hence a Steamer is now due at Lisbon from there. On the other hand, many doubt that so many people would take refuge on a satting vessel, which would be too small to accommodate 750 people; and this view is orted by the fact that all the boats of the Danmark and disappeared, and no sailing vessel would burden herself with those.

At the time the Danmark was passed her stern was

settled in the water, while her bows were up. It is one pointon that her screw propeller fouled with something that carried it away and knocked a hole in her stern; that that carried is away assengers took to the boats and started then the crew and passengers took to the boats and started in the direction of the Azores, 400 miles away. How long had the people been away from the ship when the City of Chester sighted her? No sign of the boats or the people was observed from the decks of the City of Chester. Had they swamped, or had they been long enough away from the wrecked vessel to have sailed or drifted out of sight? There were twelve boats on the Danmark, and these, to-gether with the life-rafts, would have held all the people. They may have been swamped by the heavy seas, but there is still hope that they will yet be heard from.

A policeman, who heard the shot and ound the body surrounded by a crowd, soon ascertained that the German was Bernard Kohm, a plano-maker, fifty years old, who had lived with his sick wife at No. 303 East Forty-eighth-st. In Kohm's pocket were everal letters, written in German, one of which was

translated thus: Whoever finds my body take it to Undertaker canner's shop. Letters which will be found on y person send as directed. Forgive me. I took is step, knowing what I was doing, driven to it, ty me and my poor sick wife. The revoiver is a lie from the battle of Antietam. I brought it home th me.

TWO CHURCHES CONSOLIDATED. An order was granted by Justice Ingraham, of the

Supreme Court, yesterday, consolidating the West Twenty-third Street Presbyterian Church and the Westminster Presbyterian Church, under the name of the Westminster Prosby-terian Church of Twenty-third-st. There is a mortgage of \$22,000 on the Westminster Presbyterian Church building, which is to be sold and the proceeds are to be invested in a general fund for the benefit of the new organization. The New-York Presbytery holds the mortgage, which will be taken up and a new one executed on the consolidated clurch property. The Rev. Drs. R. F. Sample and R. M. Deems are the pastors of the old churches and will be retained under the new management.

TROUBLES OF BUSINESS MEN.

Royal W. Gage and Christopher Joost, jr., composing the firm of Gage & Joost, jobbers in stoves at No. 243 Water st., made an assignment yesterday to Walter J. Barnes. They succeeded Rollo & Gage in June, 1887, and claimed a capital of \$15,000.

Henry W. Nollman, dealer in butter and cheese at No. 236 Fulton-st., made an assignment yesterday to Charles H. Noffman. He has been in business since 1868, has had several partners, and claimed a capital of \$100,000. HOPING FOR REINSTATEMENT.

Colonel William A. Jones, a veteran of the war, who

was a deputy collector in the Custom House for many years, and was deposed by Collector Magone for no other reason than the assumption that he was an "offensive partisan," is hopeful of being reinstated by Collector Erhardt. He has a number of influential friends who are prominent in business circles, and they will support him for reinstatement upon ground that injustice was done to a faithful and or teous official. A YOUNG FRENCHWOMAN LOSES HER MONEY.

Bianch Requeplant, a young Frenchweman, called on Inspector Byrnes on Wednestly and made a complaint against Caesar W. Beekman, whom she accused of taking her money, amounting to 8,500 france. She said that she had been staying at the Hartford Hotel, No. 309 Pearlist, with Beekman, and that the latter left the hotel on April 16 with the money. Beekman was arrested yester-day, but only 1,000 francs was found in his possession. He will be arraigned to-day.

"BEN" FRANKLIN GETS A SCHUBBING. The bronze statue of Benjamin Franklin, which stands immediately in front of The Tribune Office in Printing House Square, was cleaned and burnished up yesterday. It was saily in need of this sort of at-tention. It was said that the cleaning was done by the order and at the expense of a well-known actress. The statues and monuments in Union and Madison Squares will probably receive similar attention in time to make them presentable for the Centennial. The United States steam aloop-of-war Kearsarge arrived here last night from the South Atlantic Squadron, by way
